

Bell Business Internet High Speed

A simple way to improve competitive performance

At Bell, we understand how important it is to simplify things for your employees. To provide them with an easy, reliable way of connecting to the Internet. That's what **Bell Business Internet High Speed** is all about. Increasing productivity by exploring the possibilities of the Internet.

With Bell Business Internet High Speed, you benefit from faster downloads, speedy surfing and large bandwidth. Imagine the efficiencies of a team that can share files instantly instead of waiting for lengthy data transmissions. The ability to research multiple websites in less time than it took to explore just one. And the advantages of meeting with business partners through Internet-based video and audio conferencing instead of incurring travel expenses. With Business Internet High Speed, your business is connected to the Internet 24 hours a day, seven days a week, without tying up a phone line.

Bell's Business Internet High Speed service also improves your productivity with Global Roaming and Web-based Email Access. This helps you to keep in touch with your team from wherever business takes you. Allowing you to maintain a high level of customer service even when you're on the road.

Choose Bell Business Internet High Speed for easy, always on service

Bell makes business Internet easy. With available monthly or contract rates, the flexibility of up to five free email accounts and an optional custom domain name, your high-speed Internet connection will make your business more efficient while maintaining cost effectiveness.

Bell's Business Internet High Speed features make it possible for you to enhance productivity, reduce operating expenses and take advantage of all that the Internet has to offer your business.

Bell Business Internet High Speed features

1.5 Mbps / 640 Service enables you to download files from the Internet up to fifty times faster than with a dial modem, and benefit from increased upload speeds.

Always On Access gives you continuous email and Internet access without having to purchase a second line.

Shared Access / Local Access Network provides low cost, flexible Internet access for two or more computers in your office through our partnership with Nexland Canada.

Global Roaming allows you to keep in touch and respond to email from over 150 countries around the world.

Remote Dial Access allows you to check in when you're away from the office, with up to twenty hours of free dial-up access.

Standard or Custom Domain Email provides you with up to five free email accounts for enhanced communication with customers and suppliers.

20 MB of Email Storage gives you lots of room to save important messages for future reference, and if you need more room, you can purchase more storage space.

Anti-Spam Email Filtering saves your time by preventing unsolicited and nuisance emails from clogging up your inbox.

Web-based Email Access makes the most of your time and keeps you informed by allowing you to check email from an Internet connection at home or on the road.

Wireless Access to email through any cell phone with a web browser ensures you won't miss a thing when you're out of the office.

Unlimited Data Transfer allows you to make the most of your Internet connection without having to worry about exceeding any usage limits.

Optional Custom Domain Name gives you a Web presence for improved customer service and competitive advantage.

Toll-free Business Class Help Desk provides peace of mind that your questions can be answered 24 hours a day, seven days a week.

Bell Business Internet High Speed makes improved performance simple

It's easy to do business with Bell. We make it simple by offering a monthly or contract rate business Internet service. Most of the Bell Business Internet High Speed features are free of charge with your service. No special equipment is required – your modem is included with your business Internet package. Your connection is always on, and for remote usage you receive up to twenty hours of free dial-up access. With Bell, your connectivity is supported by the most extensive, 100% digital, high-capacity, optical network in Canada. Our superior network performance, backed by 3,000 network engineers, technicians and support professionals, protects and enhances your critical business functions while giving you maximum reliability and uptime.

**The ability to perform better. With faster access to resources.
With reliable connections. That's simply good business.**
