

Bell Business Long Distance

A simple way to communicate worldwide

At Bell, we understand how important it is to simplify and control your long distance calling. To benefit from global connections without losing control of expenses. That's what **Bell Business Long Distance** is all about. Hassle-free access that helps you out-distance your competition.

With Bell Business Long Distance, you benefit from access to anywhere in North America and to 240 countries worldwide. Without having to sort out complicated discounts or peak time calling periods. With Business Long Distance, flat rates on domestic and international long distance mean you can schedule calls around your business requirements, instead of around time-of-day discounts.

Bell's Business Long Distance also gives you the ability to track expenses, weigh costs against revenue generated, recover long distance expenses and limit calling abuses with our Account Codes feature. Take control of your long distance expenses, whether you decide a call has to be verified before processed, or simply require calls to be assigned to projects or departments. And for even more control, you can customize your range of privileges to restrict access to specified area or country codes.

Choose Bell Business Long Distance for easy, customized service

Bell makes long distance easy. With simple, direct, single bill invoicing, and the flexibility to choose from a variety of service options, your long distance service allows your business to circle the globe while maintaining cost effectiveness.

Bell's Business Long Distance features make it possible for you to expand customer service, track expenses and gain access to virtually anywhere in the world.

Bell Business Long Distance features

Non-Verified Account Codes help you track and allocate long distance costs. These codes can be assigned to clients, employees, projects or departments.

Verified Account Codes are a security feature. The network verifies that callers have an authorized account code before permitting calls to go through.

Alpha Numeric Account Codes will allow for the displaying of alpha numeric account codes up to 25 characters and provide literal translation for numeric codes or your regular business Calling Card calls so you can ensure security or track calls to projects.

Range Privileges restrict calling to specific geographic areas, helping you control costs and deter long distance misuse.

Cross-Border Shared Dial Plans allow you to add U.S. and Canadian locations to the same dial plan.

Bell Business Long Distance makes things simple for you

It's easy to do business with Bell. We make it simple by offering flat rate Business Long Distance, with no set up fees and simple billing. All of the Long Distance features are free of charge with the service. Our billing system tracks your calls in convenient timing and billing increments.

The world at your fingertips. Any time. Under control. That's simply good business.

NOTE: Bell Long Distance is not available where the local carrier is an independent telephone company.
